DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

There are some typing mistakes according to the previous presented claim 1.

In claim 1, line 7, recitation "... is aligned in to determine ..." should be - - ... is aligned to determine ... - -; and in claim 1, line 12, recitation "... at least of the polarizers is ..." should be - - ... at least one of the polarizers is ... - -

Allowable Subject Matter

1. Claims 1, 4-6, 9, 12 and 22 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 1, 4-6, 9, 12 and 22 are allowable because the prior art of record neither anticipate nor rendered obvious that a liquid crystal display comprises various related elements as claimed with specific features recited in the claims 1 and 9 as follows:

in claim 1, the transmissive axis of at least one of the polarizers is at an angle within a range of 9 to 10 degrees with respect to an alignment direction of the aligned one of the upper and lower alignment films as shown in Fig.9;

in claim 9, the transmissive axis of the one of the polarizers is at an angle within a range of 9 to 10 degrees with respect to an alignment direction of the aligned alignment film as shown in Fig.9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
